DETAILED ACTION

Change of Examiner

1. Note the change of Examiner in the present application. The Art Unit number (1624) remains the same.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 07/017,641, filed on February 24, 1987.

Reissue Applications

3. The original reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) as it does not set forth a specific error being corrected in this reissue application. The subject matter of the originally filed claims of related reissue SN 08/254,202 is now divided among that application and four divisional reissue applications, the present application being one of them. The same original declaration is not seen sufficient for each of these five application. Each declaration must point out an (the) error to be corrected in the reissue application in which it is filed. Submission of new declarations appropriate for each of the now pending applications is required.

Art Unit: 1624

4. Claims 1, 7 and 8 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.
5. The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Surrender of Original Patent

6. The original patent has been surrendered in the response of October 12, 2002 in related reissue SN 08/254,202.

Allowable Subject Matter / Conclusion

7. Upon correction of the defective declaration above, the claims of the present application will be allowable.
